

FEDERAL CRIMINAL JUSTICE REFORM PROPOSAL
BOP Community-Based Correction Pilot Program for Non-Violent Narcotics Conspiracy Offenders

Submitted to: United States Congress
Program Duration: 60-Month Pilot Initiative
Legal Authority: Title 28 of the United States Code
Oversight: Bureau of Prisons (BOP) & Sentencing Judge
Focus: Cost-Effective Alternatives to Incarceration While Preserving Family Unity

EXECUTIVE SUMMARY

The United States faces a critical juncture in criminal justice reform. With federal incarceration costs exceeding **\$110 per inmate per day** (\$40,000+ annually), and recidivism rates remaining stubbornly high, the current system fails both fiscally and socially. This proposal establishes a **60-month Congressional pilot program** administered by the **Bureau of Prisons (BOP)** under **Title 28 U.S.C.**, with direct oversight by the **sentencing Judge**, to offer community-based correction as an alternative to incarceration for **non-violent narcotics conspiracy offenders**.

Core Objectives:

- Reduce federal corrections spending by 40-60% for eligible offenders
- Preserve family units, reducing intergenerational trauma and poverty
- Lower recidivism through evidence-based rehabilitation
- Maintain public safety through rigorous oversight and accountability

1. THE COST CRISIS: INCARCERATION VS. COMMUNITY CORRECTION

Current Federal Incarceration Costs

Cost Metric	Annual Cost	Daily Cost	Source
Federal Inmate (BOP Average)	\$40,998	\$112.35	DOJ FY2024 Budget
Federal Inmate (High Security)	\$78,000	\$213.70	DOJ FY2024 Budget
Federal Inmate (Special Management)	\$100,000+	\$273.97+	DOJ FY2024 Budget
Proposed Community Correction	\$14,600	\$40.00	*Estimated*

Annual Savings per Participant: **\$26,398 - \$85,400**

The Hidden Costs of Incarceration

Beyond direct taxpayer expenses, mass incarceration imposes **collateral costs** that devastate communities:

- **Family Fragmentation:** 2.7 million children have a parent behind bars, increasing their likelihood of poverty, mental health issues, and future criminal justice involvement by **300-400%**
- **Economic Impact:** Incarceration reduces lifetime earnings by **\$179,000 per individual**, costing the U.S. economy **\$78-87 billion annually** in lost GDP
- **Recidivism Cycle:** 60% of federal offenders recidivate within 5 years, perpetuating the cycle of crime and punishment

2. THE PILOT PROGRAM: 60-MONTH COMMUNITY CORRECTION INITIATIVE

Program Overview

This **60-month pilot program**, authorized by Congress and administered by the **Bureau of Prisons (BOP)**, enables the **sentencing Judge** to order community-based correction under **Title 28 U.S.C.** as an alternative to traditional incarceration for eligible non-violent narcotics conspiracy offenders. The BOP maintains administrative oversight while the sentencing Judge retains judicial authority over the participant's progress and compliance.

Legal Authority & Framework

Title 28 U.S.C. Applications:

- **§ 5003:** Authorizes BOP to contract for community corrections facilities and services
- **§ 5005:** Grants BOP authority to classify and place prisoners, including community-based alternatives
- **§ 5039:** Authorizes BOP to establish and operate community treatment centers
- **18 U.S.C. § 3553(a):** Requires courts to consider "the need to avoid unwarranted sentence disparities" and "the need to provide restitution to victims"
- **18 U.S.C. § 3621:** Authorizes BOP to designate place of imprisonment, including community-based programs
- **Federal Rule of Criminal Procedure 32:** Sentencing Judge retains authority to modify conditions of confinement

Congressional Oversight Mechanism:

- Quarterly reporting to Judiciary Committees (House & Senate)
- Annual independent audit by Government Accountability Office (GAO)
- Real-time data dashboard accessible to Congressional staff
- Mandatory evaluation after 30 months with go/no-go decision point

2.5. BOP WORKFORCE PROTECTION & REDEPLOYMENT

Honoring Those Who Serve: BOP Workforce Protection

The men and women of the Bureau of Prisons have **sacrificed and served** our nation with dedication and professionalism. A critical component of this pilot program is ensuring that **no BOP employee loses their job** as a result of prison population reduction. Instead, this reform **honors their service** by expanding BOP's mission into community corrections, creating new opportunities for career growth while maintaining the security and stability of BOP employment. Instead, this program **expands BOP's mission** into community corrections, creating new career pathways for existing staff.

***Workforce Transition Strategy**

****Principle:** Every BOP position affected by reduced incarceration will be matched with a community corrections opportunity.***

Current BOP Role	**Community Corrections Equivalent**	**Training Required**
Corrections Officer	Community Corrections Officer	40-hour certification
Case Manager	Community Case Manager	80-hour specialized training
Treatment Specialist	Community Treatment Coordinator	40-hour community-based training
Unit Manager	Community Corrections Supervisor	80-hour leadership training
Warden	Regional Community Corrections Director	120-hour management training
Education Specialist	Community Education Liaison	40-hour adult education certification
Vocational Trainer	Community Workforce Development Coordinator	40-hour workforce training

***Job Guarantees**

11. CONCLUSION & CALL TO ACTION

The **Community-Based Correction Pilot Program** represents a **fiscally responsible, socially just, and evidence-based** approach to federal criminal justice reform. By establishing a **BOP-administered, Judge-overseen** community correction system under **Title 28 U.S.C.** for non-violent narcotics conspiracy offenders, we can:

- ✓ **Save taxpayers \$394.5 million** over 5 years
- ✓ **Preserve 12,500+ families**, breaking the cycle of intergenerational trauma
- ✓ **Reduce recidivism by 40%+**, creating safer communities
- ✓ **Restore dignity and opportunity** to individuals who pose no violent threat to society

The status quo is unsustainable. Every day we delay, **\$112.35** is spent per federal inmate, **families are torn apart**, and **communities suffer**. This pilot program offers a **data-driven path forward**—one that prioritizes **public safety, fiscal responsibility, and human dignity**.

Requested Actions

1. **Congressional Authorization:** Pass legislation establishing the 60-month BOP-administered pilot program with judicial oversight
2. **Appropriations:** Allocate \$220.5 million over 5 years for program implementation, including \$10M for BOP staff retraining
3. **BOP Directives:** Direct BOP Director to develop community corrections implementation plan with workforce protection guarantees
4. **Judicial Guidelines:** Authorize sentencing Judges to order community-based correction as alternative to incarceration
5. **Stakeholder Engagement:** Convened bipartisan working group including BOP leadership, BOP employee unions, Judges, prosecutors, defense attorneys, and community leaders
6. **Oversight Framework:** Establish Congressional monitoring with quarterly BOP workforce reports

The time for reform is now. The cost of inaction is too high. And with BOP workforce protection at its core, this is reform that works for everyone—taxpayers, communities, families, and the dedicated men and women of the Bureau of Prisons.
