

MADISON, D.C.

A New Capital for a New America

Washington, Maryland will be a city that has a chance to really flourish
as it will be a part of something we take for granted: STATES.

700,000+ Americans have paid taxes with NO VOTING SENATORS for nearly 250 years.
As Washington, D.C. becomes Washington, MD, they finally gain full representation.

America's architectural flow at the federal level must be harmonic with the flow
of information as it is today and not as it was in 1793.

In 1793 information moved at horse speed. Today it moves at light speed.

MADISON, D.C.

A New Capital for a
New America

Swipe to learn more →

Washington, D.C. is a modern plantation.

700,000+ Americans
NO VOTING SENATORS
for nearly 250 years.

As D.C. becomes
Washington, MD —
FULL REPRESENTATION.

A city that will finally
flourish — part of
something we take for
granted: a STATE.

UNITED STATES

CAPITAL • WASHINGTON, D.C. • FOCUS

Taxation without representation didn't end in 1776.

Nearly 250 years
disrespected.

As Washington, Maryland —
a city with a chance to
really flourish, finally
part of a state.

— CAPITAL MOVES —

— A MODERN OVERVIEW —

How capitals shift over time • Educational overview • 2024

Capitals move. Ours should too.

Brazil → Brasília

Germany → Berlin

China → Beijing

It's America's turn.

CONCEPT MAP CHATHAM COUNTY, NORTH CAROLINA

HIGHLIGHT — MADISON D.C. NEW FEDERAL DISTRICT

Area near Moncure & Haw River proposed as new federal district • Clean modern infrastructure • Green spaces & waterways preserved

Meet Madison, D.C.

Chatham County, NC

Near Moncure / Haw River

Washington, D.C. becomes
Washington, Maryland —
a city that will finally
flourish as part of
something we take for
granted: STATES.

Full representation.

Full democracy.

UNITED STATES

NORTH CAROLINA

Highlighted in Teal • Highway & Central Location

Why North Carolina?

- ☐ **Central in the U.S.**
- ☐ **Underdeveloped land**
with highway access
- ☐ **Bridge between**
North & South,
past & future

Architecture must match information flow.

2026, not 1793

1793: info moved at
horse speed.

2026: info moves at
light speed.

Federal architecture must
be harmonic with TODAY.

Neo-classical +
sustainable + open data

Spaces that foster transparency, collaboration, and speed.

Glass walls.
Open atriums.
Green spaces.

Information flow =
architectural flow.

Designed for light speed,
not horseback.
